

4th

**Annual Conference of Minimal
Invasive Surgery Society of Upper
Egypt
“MISSUE “**

Scientific Program

Welcome Note

Dear Colleagues,

We are honored to invite you to the 4th annual conference of the Minimal Invasive Surgery Society of Upper Egypt (MISSUE), that will be held from 19th to 20th February in Aswan, the birthplace of ancient history.

Over the past years, our annual conferences achieved remarkable success. Nevertheless, this year we are intending to expand our vision to include a more comprehensive academic, clinical and scientific expertise together on the same platform to deliver the safest and most up-to-date medical/technical practices in order to improve the knowledge and performance of Upper Egyptian obstetricians and gynecologists.

We look forward to continue our vision of being a landmark within the annual interdisciplinary medical events in Egypt. We will be honored and privileged to hosting international and national scientists, experts, clinicians and medical students during this highly inspiring event.

We would like to invite you to join us in shaping and bringing to light a provocative program, and to contribute to a successful and invigorating congress.

***Sincerely,
Dr. Abdo Elswesy
Head of MISSUE
Aswan***
